

SEBASTIAN BENAVIDES

JUNIOR FULL STACK DEVELOPER

About Me

I am a passionate Junior Full Stack developer with a strong interest in technology, characterized by curiosity and a solution-oriented mindset. I am organized and consistent, which makes me efficient and punctual. I highly value communication and commitment in teamwork.

Furthermore, my experience in karate has instilled discipline and tenacity in me, particularly in high-pressure situations. I am seeking opportunities within a dynamic company to contribute and continue learning in my career as a developer.

Experience

Bama sistemas

Madrid- Spain

2023

- Support in technical design by analyzing the technical requirements of the application.
- Assist in the integration of technical components and applications to meet business requirements.
- Conduct unit tests and participate in integration testing.
- Maintain, adjust, and repair applications to ensure their performance aligns with technical and functional specifications.
- Document and provide training and user support.

Somos F5 y thoughtworks

Madrid- Spain

2023

Full Stack Developer in an e-commerce hackathon, enhancing UX, search, and security. I designed functionalities, scalability, database architecture, and RESTful API. Proficient in problem-solving under pressure.
